

# QCA GREASE MX9

Mixed Complex Grease Issue: August 2014

Product Code:	Pack Size:	Carton Qty:
QCAG00045	450gm	6
QCAG020	20 kg	1
QCAG180	180 kg	1

# Description

**QCA Grease MX9** is an advanced technology, NLGI 2, mixed-complex grease, containing 9% solids that provide additional lubrication in high load applications in industries such as quarries, construction and agriculture.

It is made using a lithium-calcium complex soap with "built-in" extreme pressure and anti-wear properties. These are further enhanced by the addition of anti-oxidant and corrosion inhibitors. It also uses special tackifiers to help the product stay in place and adhere to critical surfaces where it can better lubricate metal surfaces. This provides a superior outcome over "super-stringy" type greases that adhere to themselves but not surfaces, which require the equipment to work harder to overcome internal friction.

## **Application**

**QCA Grease MX9** is recommended for use in severe heavy duty applications where high shock loads are common including those in corrosive environments. These include in industrial plants and off-highway equipment used in the mining, agricultural, forestry and construction industries to name a few. Ideal for shackles, bolts, ball joints, king-pins, slow speed bearings, universal joints, CV (constant velocity) joints and may be used as a fifth wheel lubricant.

**QCA Grease MX9** is ideal in applications requiring grease with solid anti-wear additives in high temperature environments where conventional lithium greases are unable to be used.

QCA Grease MX9 has a recommended operating range is -20°C to 140°C.

QCA Grease MX9 is not recommended for high speed bearings such as automotive wheel bearings.

#### **Product Benefits**

- Minimises squeeze out
- Seals out dirt
- Extremely resistant to water wash out
- High adhesion helps it stay in place
- Prevents scoring and spalling under extreme loads
- Excellent corrosion resistance
- Exceptional load carrying capacity
- STICKS WHERE IT IS NEEDED NOT TO ITSELF

### **Industry Specifications**

NLGI 2

Caterpillar MPGM
