It contains a unique combination of extreme pressure additives, long life friction modifiers, anti-shudder additives and synthetic base oils, to provide maximum wear protection and extended service life.

### Application

**HDPS Fluid** is primarily recommended for use in the rear differential units used in Honda CRV and HRV recreational four wheel drives.

**HDPS Fluid** may also be used as a light manual gear oil where automatic transmission fluids are recommended, but as it is not made from ATF technology it should never be used in automatic transmissions.

**HDPS Fluid** is suitable for use as a 10W motorcycle fork oil.

**Note - Not recommended for Honda MDX differentials as these require an MTF-4 fluid.**
