PRODUCT BENEFITS

LHM Plus is Premium Mineral oil specifically designed for use in power steering, suspension, hydraulic and braking systems meeting ISO 7308 for petroleum based fluids used in stored energy systems.

APPLICATION

LHM Plus is recommended for service re-fill or top-up of hydraulic suspensions systems, braking and power steering systems where the manufacturer calls for a mineral based LHM fluid (Liquide Hydraulique Mineral). Vehicles requiring a full synthetic LHM fluid, use Penrite LDAS fluid.

LHM Plus is also suitable for other vehicle suspension systems and in vehicles requiring mineral brake fluid such as Jaguar (HSMO), Rolls Royce and in some tractors.

LHM Plus can also be used as fork oil for motorcycles requiring a Fork oil between 5 & 10. It can also be used as a light hydraulic oil.

CAUTION: Must not be used in vehicles specifying vegetable oils, synthetic fluids or conventional brake fluid. Penrite **LDAS** (Synthetic Fluid), **MB-15**, **PAS** Fluid, **HPSO** & **Power Steering Fluid** are available for many other applications where LHMP is not specified.

PRODUCT BENEFITS

- Protects against wear and corrosion
