MULTI PURPOSE WASH

Heavy Duty Car & Truck Cleaner

Issue: December 2015

Product Code:	Pack Size:	Ctn / Qty
DETCTW001	1 Litre	6
DETCTW020	20 Litre	1
DETCTW200	200 Litre	1
DETCTW1000LTR	1000 Litre	1

Description

Multi Purpose Wash is a heavy duty, multi-purpose, biodegradable detergent cleaner, capable of cleaning the most heavily soiled cars, 4WDs, trucks and other vehicles. Its unique formulation will not cause damage or streaking to the paintwork. It is safe to use on all modern automotive paintwork finishes and will not harm aluminium, vinyl, rubber, glass or fiberglass.

Multi Purpose Wash is pH neutral and free of phosphate and salt, making it environmentally safer to use. It is also a quick-break detergent, allowing oil and water to separate, making it easier to remove the oil/grease layer when used with oil/water separators, interceptor pits and oil traps.

Application

Multi Purpose Wash is designed to clean a wide range of vehicles and equipment used in many varied industries such as mining, logging, interstate haulage and quarrying as well as for general automotive, motorbike, marine, caravan and truck washing. It is specifically suited to cleaning hard to remove or stubborn substances. It is suitable for use in many industrial areas including mine sites and truck transportation depots, wherever a heavy duty vehicle wash would be needed.

Multi Purpose Wash can also be used for cleaning concrete driveways, houses and other external machinery and items that are impervious to water ingress.

Multi Purpose Wash is a heavy duty, fast acting, concentrated formulation and is extremely economical to use if following recommended mixing levels. Cap from a 1 litre or a 5 litre container holds approximately 30 mls. For best results use as directed.

Directions for use (please use correct dilution rates):

Wash off excess dirt/mud with water. Spray or sponge onto the surface to be cleaned and leave soaking for up to 10 minutes. Then hose off with water. For heavy duty cleaning, increase dilution rate as directed.

Vehicle Cleaning	Recommended Dilution*	Method Of Application
General Cleaning	30mls per 10 litres water	Sponge/ spray
Heavy Duty	50mls per 10 litres water	Sponge/spray
Pressure Washing Machines	As per machine instructions	Spray

Product Benefits

- Water based, non-flammable
- Biodegradable, quick-break formulation
- pH neutral, phosphate and salt free
- Easy and economical to use
- Capable of heavy duty cleaning
- Wide range of vehicle/equipment type use

Typical Data

Colour	Blue / Green
pH	7
Density at 15°C, kg/L	1.00

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
