| MAHC020 | 20 Litres | 1 |

PENRITE

Description

Penrite Hand Cleaner with **POLY BEADS** has been designed to clean and condition dirty and soiled hands.

Application

Penrite Hand Cleaner is perfect for automotive workshops and service centres, marine, industrial, agriculture, mining and forestry industries.

Penrite Hand Cleaner removes dirt, oil, grease and other industrial soils quickly and completely. It contains carefully selected **POLY BEADS** to help remove ingrained and aged dirt and grime. The **POLY BEADS** float in water and are far less likely to block drains than other abrasives used in hand cleaners.

Penrite Hand Cleaner contains no petroleum solvents or harsh alkalis so it will not dry or crack the user's skin or leave unpleasant solvent odours. It contains selected conditioning agents and a non-persistent perfume which leaves hands feeling smooth, soft and fresh. It contains orange oil to assist in removing grease and oily soils.

Directions for use

1. Dispense directly onto hands
2. Rub into hands and between the fingers and nails for 30 – 60 seconds.
3. Rinse off with running water.

Product Benefits

- Rapidly penetrates, dissolves and removes dirt, oil, grease and other industrial soils
- Contains **POLY BEADS** to help remove ingrained and aged soils.
- Leaves hands feeling soft and supple
- Makes hand washing a pleasant experience for the user
- Works well in both hard and soft water areas
- Free of petroleum solvents which can cause skin problems with some people
- Contains no harsh alkalis.
- Biodegradable, non-hazardous and non-toxic
