

Power Steering Stop Leak

Steering Leak Sealer

Issued: February 2017

Product Code	Pack Size	Ctn / Qty
ADPSL375	375ml	6

Description

Power Steering Stop Leak has been specifically formulated to control leaks in the power steering system due to deteriorated or worn seals and gaskets.

Application

Power Steering Stop Leak has been designed for use in power steering systems that utilise Automatic Transmission Fluids (ATF's) as the power steering fluid. Suitable for cars, 4WDs, and light commercial vehicles.

Power Steering Stop Leak is suitable for use with vehicles that use the following Penrite power steering and automatic transmission fluids –

- Penrite Power Steering Fluid
- Penrite Multi-Vehicle DX-III
- Penrite Multi-Vehicle DX-VI
- Penrite Multi-Vehicle MHP
- Penrite Multi-Vehicle FS
- Penrite ATF 33 Type F
- Penrite ATF Top Up
- Penrite Classic ATF

For best results

- As the bottle contains 375ml, ensure the reservoir has the capacity prior to filling.
- Add one bottle (375ml) for up to 1 Litre of power steering fluid.

Note:

If leaks are still evident after use, replacement or repair of these parts may be required.

Product Benefits

- Reduces system leaks
- Revitalises worn seals and gaskets
- Extends component life
- Reduces squawk
- Increases the viscosity of the power steering fluid
- Can reduce costly repairs

Typical Data

Colour	Amber
Density @ 15°C	0.863
Viscosity, Kinematic, cSt	
40°C	86
100°C	16.7
Viscosity Index	211

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect performance. A MSDS is available on request.
