

TYRE SHINE

TYRE SPRAY AND PROTECTANT

Issue: July 2014

Product Code:	Pack Size:	Carton Qty:
CCTS020	20 Litre	1

Description

Tyre Shine is a long lasting, rich, deep shine, “**Wet Look**” spray for the tyres. It simultaneously improves the appearance of the tyres and maintains and protects the tyres from cracking, premature aging, brown discolouration and colour bleaching. It improves the appearance of the vehicle and gives it a finishing touch.

Application

Tyre Shine is a tyre maintenance product that produces a “Wet Look” for all types of vehicle tyres. It is suitable for passenger cars, 4WD’s, light and heavy duty commercial vehicles. It is suitable for all types of tyres, is easy to apply and can last for several weeks depending on conditions.

Tyre Shine improves the appearance of the tyres and completes and compliments servicing and cleaning of vehicles.

Tyre Shine is a spray on formulation providing an even film of coverage on the tyres for a more enhanced and professional finish than tyre paints. It is easy to use and takes little downtime to improve the overall appearance of the vehicle.

Instructions for use:

- **Tyre Shine** is a liquid and can be applied by spray, brush, sponge or rag.
- Decant product into a suitable container for application
- Spray, wipe, paint an even coat over the outside of the tyre
- Wipe any excess from wheels or hub caps
- No further action necessary

Please note: Avoid spraying directly onto brake discs or brake pads.

Product Benefits

- Cleans and protect tyres
- Provides the “Wet Look” for tyres
- Stops tyres from prematurely aging and cracking
- Customer appreciation.
- Spray formulation for easy & even coverage.
- Economical, quick & easy to use
- Improves customer experience
