

WATER PUMP GREASE

Calcium Grease

Issue: July 2015

Product Code	Pack Size	Ctn / Qty
WPGR00005	50gm	6

PENRITE

Description

Water Pump Grease is an NLGI 4, moderate duty grease manufactured from high quality base oils and a calcium soap.

Application

Water Pump Grease is recommended for the lubrication of water pumps in older vehicles or in fire fighting and irrigation equipment requiring a heavy grease.

Water Pump Grease can be used in spring loaded greasing units, via a grease gun to pump shafts or in screw applied greasers.

Water Pump Grease can be used for general lubrication in moderate duty in the 0°C to 75°C temperature range. Suitable for use in plain or roller bearings that require a heavy NLGI No. 4 greases

Note: In vehicles fitted water pumps, never over lubricate as excess quantities will be deposited in the radiator, resulting in loss of performance.

Product Benefits

- Resists water wash out.
- Lubricates and helps to seal the water pump glands
- Protects against rust and corrosion
- Will not separate in service

Industry Specifications

NLGI 4

Typical Data

Soap Type	Calcium
NLGI	4
Drop Point, °C	90
Colour	Amber Yellow

Information in this sheet is based on recent production. Minor variations to typical properties are expected in normal manufacture and do not affect product performance. An MSDS is available on request.
