MOTORCYCLE

PENRITE

CRF

Lavish your motorcycle with the same expert care as used by professional race teams, with **PENRITE'S** premium quality range of motorcycle engine oils and speciality products. Our motorcycle range is suitable for late model Japanese, European and US sourced bikes, Asian made pit bikes all the way through to early model and classic American, British and European bikes.

Our range carries the latest industry specifications and offers 100% PAO ESTER full synthetic, semi synthetic and premium mineral ranges with Full Zinc for anti wear protection. They are compatible with petrol and racing fuels such as Avgas, methanol/alcohol. **PENRITE** is proud to have a comprehensive range offering quality and value.

FEATURES & BENEFITS

- **RANGE** of 2 and 4 stroke engine oils
- **AVAILABLE** in 100% PAO ESTER, full synthetic, semi synthetic and premium mineral
- **COMPREHENSIVE** range of ancillary products
- **FULL ZINC** to minimise engine wear
- **100% PAO ESTER** engine oils
- **LATEST** JASO and industry specifications
- **2 STROKE** available in 1L chamber pack

SUPERBIKE CHAMPION

NEW PRODUCT

NEW RACE COOLANT INHIBITOR PREMIX IS READY TO USE

No mixing or measuring required. Premixed with demineralised water, it can be used straight out of the bottle.

LOWERS engine operating temperatures preventing damage

NO SLIPPERY residue if dropped on a race track

CONTAINS a conventional hybrid inhibitor

REMOVES cavitation for better heat dissipation

COMPATIBLE with seals, pipes & hoses

PROTECTS all metals from corrosion

PROTECTS water pumps and seals

BIODEGRADABLE and environmentally friendly

LASTS up to 5 years or 150,000km

Hybrid-organic, Type "B", non-glycol based Corrosion Inhibitor that effectively lowers engine temperatures whilst providing maximum protection against corrosion, cavitation, scaling and oxidation for up to 5 years.

Formulated for all water cooled engines, especially where high engine operating temperatures are experienced. It provides superior heat transfer abilities to lower engine running temperatures compared to glycol based engine coolants.

PENRITE **10 TENTHS**
PERFORMANCE

NEW 10 TENTHS POWER SPORTS COOLANT PREMIX IS READY TO USE

Low toxicity, propylene glycol based, Anti-Freeze Anti-Boil coolant premix

SAFER for the environment

ANTI-FREEZE ANTI-BOIL protection

EXCELLENT protection for off-road and marine power sports equipment.

LOW TOXICITY compared to Mono Ethylene Glycol based coolants

COMPATIBLE with most coolant types

PREMIXED at 50:50 ratio so no mixing required

LASTS for 3 Years or 500 hours

PROVIDES long life protection for all metals, plastics, rubbers and seals

NEW PRODUCT

Type A, low toxicity, propylene glycol based, blue coloured anti-freeze anti-boil coolant. It contains low levels of silicate, is phosphate and amine free and is much safer for the environment than standard ethylene glycol based coolants. It uses a hybrid inhibitor to provide long lasting corrosion protection for the entire cooling system.

Designed for use wherever glycol based coolants are specified especially where high engine operating temperatures are experienced.
