Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name:	MC BIO DEGREASER		
Synonyms:	MCBD		
Product Code:	MCBD		
SUPPLIER:	Penrite Oil Company Pty Ltd		
ADDRESS:	Australia:		
	110-116 Greens Road Dander	ong South VIC 3175	
	New Zealand:		
	75 Lady Ruby Drive East Tamaki Auckland 2013		
TELEPHONE:	Australia: 1300 736 748;	FAX:	Australia: 1800 736 748;
	New Zealand: 0800 533 698		New Zealand: 0800 533 698
EMERGENCY PHONE:	Australia: 1300 736 748;	ABN:	25 005 001 525
	New Zealand: 0800 533 698		
Substance:	Water based cleaner	Product Use:	Degreaser
Creation Date:	September 2021	Revision Date:	September 2026
HSNO Approval Number:		HSNO GROUP TITLE:	Cleaning Products (Subsidiary
	HSR002530		Hazard) Group Standard 2020.
HS CODE:	3402.99.00	Email:	tech@penriteoil.com (Aust and NZ)

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture

Based on available information, this material is classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (**GHS7**) including Work, Health and Safety regulations, Australia.

Poisons Schedule	Not scheduled.
Dangerous Goods	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".
GHS Classification	Serious Eye Irritation - Category 2
HSNO Classification	• 6.4A Substances that are irritating to the eye.
GHS Pictogram	GHS07
GHS Signal Word	WARNING
Hazard statement(s)	
H319	Causes serious eye irritation
Precautionary statement(s): G	eneral
P102	Keep out of reach of children.
P103	Read label before use.
Precautionary statement(s): P	revention
P264	Wash hands thoroughly after handling.
P280	Wear eye protection/ face protection.
Precautionary statement(s): R	esponse
P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/attention.
Precautionary statement(s): St	

Precautionary statement(s): D	None allocated. isposal
	None allocated.
Note	
IMPORTANT	This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied. When diluted with clean water to 1:3 or greater they no longer apply. However, good hygiene and housekeeping practices should be adhered to.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS			
Ingredients:	CAS Number:	Proportion:	
Natural Orange Oil (D-Limonene)	5989-27-5	< 1.0 % w/w	
Sodium dodecylbenzene sulphonate	25155-30-0	< 10 % w/w	
(C10-16) Alkyl alcohol ethoxylate, sulfated,			
sodium	68585-34-2	< 10 % w/w	
Sodium Hydroxide	1310-73-2	< 0.1 % w/w	
Ingredients determined to be non-			
hazardous at concentrations present.	various	Balance	

NOTE:

Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS).

SECTION 4 – FIRST AID MEA	SURES
Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New
	Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or
	New Zealand 0800 764 766).
First Aid Facilities Required	
	Ensure there is access to eye washes and safety showers.
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.
Skin contact	Wash skin with plenty of water. Seek medical advice (e.g. doctor) if irritation, burning or
	redness develops. Seek medical advice (e.g. doctor).
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove
	contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a
	doctor, or for at least 15 minutes. If symptoms persist, seek medical attention.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious
-	person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting
	occurs, give further water to achieve effective dilution. Seek urgent medical advice (e.g.
	doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of
	distress of the patient. Poisons Information Centre in each Australian State capital city or in
	Christchurch, New Zealand can provide additional assistance for scheduled poisons.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards	Non flammable.		
Extinguishing Media	Use an extinguishing media suitable for surrounding fires.		
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-		
	contained breathing apparatus if risk of exposure to products of combustion or		

Flash Point	decomposition. Non combustible
SECTION 6 – ACCIDENTAL R	ELEASE MEASURES
Emergency Procedures	Shut off engine and electrical equipment and leave off.
	Move people from immediate area; keep upwind.
	Wear appropriate personal protective equipment and clothing to prevent exposure.
	Stop leak if safe to do so.
	Send messenger to notify fire brigade and police. Tell them location, material quantity, emergency contact.
	Indicate condition of vehicle and damage or injuries observed.
	Warn other traffic.
Occupational Release	Minor spills do not normally need any special clean-up measures. Rinse with water. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If required, neutralize with citric acid or acetic acid. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.
SECTION 7 – HANDLING AN	D STORAGE
Handling Storage	As with any chemical, avoid excessive personal contact. Wear protective clothing when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling. Work clothes should be laundered. Launder contaminated clothing before re-use. Store in a cool, dry, place with good ventilation. Avoid storing in aluminium and light alloy containers. Store away from acids. Keep containers closed at all times – check regularly for
	leaks
SECTION 8 – EXPOSURE CO	NTROLS AND PERSONAL PROTECTION
Control parameters	
Occupational Exposure	National Occupational Exposure Limits, as published by National Occupational Health &
Limits	Safety Commission:
	Time-weighted Average (TWA): None established for product.
	For ingredient: Sodium hydroxide: 2 mg/m3 Peak limitation
Control naromators	Short Term Exposure Limit (STEL): None established for product.
Control parameters	
Biological Limits	No biological limits allocated.

Use only in a well-ventilated area. Ensure ventilation is adequate to maintain air concentrations below exposure standards.

PERSONAL PROTECTION PPE

Ventilation

Personal Protective Equipment

Eye Protection

Protective Material Types

Respirator

Use good occupational work practice.

The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.

The following protective equipment should be available;

The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

Wear gloves. Overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

Material suitable for detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.

Not required for normal cleaning operations with adequate ventilation.

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

SECTION 9 – PHYSICAL A	ND CHEMICAL PROPERTIES		
Physical State	Liquid	Colour	Orange
Odour	Characteristic citrus	Specific Gravity	1.01 – 1.03 @ 25 ºC
Boiling Point	Not relevant	Freezing Point	Not relevant
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	Not flammable	Flammable Limits	None
Water Solubility	Miscible in all proportions	рН	~ 11.35 (neat)
Volatile Organic Compo	unds	Coefficient of Water/Oil	
(VOC)	<1 % v/v	Distribution	Not available
Viscosity	Not available	Odour Threshold	Not available

SECTION 10 - STABILITY AND REACTIVITY

Evaporation Rate

Not available

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Conditions to avoid	Avoid contact with heat or heat sources. Acids.
Incompatible materials	Oxidising agents.
Hazardous decomposition	Product can decompose on combustion (burning) to form Carbon Monoxide, Carbon Dioxide,
products	and other possibly toxic gases and vapours.
Hazardous Reactions	None known.

Per Cent Volatile

Not available

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are: Inhaled Inhalation over exposure may result in mucous membrane irritation of the respiratory tract

	and coughing.		
Ingestion	Ingestion may result in irritation to the mouth and throat, nausea, vomiting.		
Skin Contact	Skin contact may result in irritation, redness, rash, dermatitis. Severity depends on the		
	concentration and duration of exposure.		
Eye	Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging,		
	blurring, tearing.		
Chronic exposure	No known effects.		
Toxicology Information	Not toxic, based on ingredients. Oral LD50 (ATE calculated) : >20,000 mg/kg		
Carcinogen Status			
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.		
NTP	No significant ingredient is classified as carcinogenic by NTP.		
IARC	No significant ingredient is classified as carcinogenic by IARC.		
Respiratory sensitisation	Not expected to be a respiratory sensitizer.		
Skin Sensitisation	Not expected to be a skin sensitizer.		
Germ cell mutagenicity	Not considered to be a mutagenic hazard.		
Reproductive Toxicity	Not considered to be toxic to reproduction.		
STOT-single exposure	Not expected to cause toxicity to a specific target organ.		
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.		
Aspiration Hazard	Not expected to be an aspiration hazard.		

SECTION 12 – ECOLOGICAL INFORMATION

Acute Aquatic Toxicity	
Product (as sold)	Acute Aquatic Toxicity Category 3
	H402 - Harmful to aquatic life. (LC50 >10 mg/L but < 100mg/L)
	Acute Aquatic Toxicity (ATE Calculated) LC50 fish: approx. 70 mg/L.
Product (at use dilution)	Acute Aquatic Toxicity NOT HAZARDOUS
	Not harmful to aquatic life. LC50 > 100mg/L.
	Acute Aquatic Toxicity (ATE Calculated) LC50: 7,000 mg/L.
Chronic Aquatic Toxicity	
Persistence and degradability	Biodegradable, based on ingredients.
Bio accumulative potential	No bioaccumulation is expected.
Mobility in soil	Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.
Other adverse effects	Not available
Environmental Protection	Do not discharge this material into waterways.

SECTION 13 – DISPOSAL CONSIDERATIONS

Product and Packaging	Dispose of contents/container to chemical landfill. Consult local or regional wast	:e
Disposal	management authority for further details.
