EPLUSPWF	20L	

### PRODUCT BENEFITS

**Enviro+ Parts Washer Range** is a professional biological part washing machine and associated products.

### APPLICATION

**Enviro+ Parts Washer** is a solvent free part washing machine which uses the principle of natural regeneration using microorganisms to transform pollutants into a food and energy source. It keeps a consistent temperature of 38<sup>0</sup>c for optimal cleaning.

### PRODUCT BENEFITS

- Solvent-free
- Non-flammable
- Minimises waste due to the bioremediation
- No frequent draining is required
- Reduction of VOC (volatile organic compounds)
- Several cleaning options include soaking and agitating with the inbuilt brush attachment
