HYBRID INJECTOR CLEANER

Last updated: 16/05/2022 12:02 pm

PRODUCT CODE	PACK SIZE	CARTON QTY
ADHYB375	375mL	6

PRODUCT BENEFITS

Hybrid Injector Cleaner is a petrol fuel treatment specially formulated for hybrid engine technology. It actively cleans deposits in the fuel, combustion system and injectors while preventing the build-up of new deposits resulting in improved fuel economy and power.

Hybrid Injector Cleaner is formulated to provide a complete solution to combat frequent engine cold-start situations. This enhanced technology stabilises fuel to prolong fuel life and adds a lubricity improver to combat reduced lubrication due to frequent stop-starts.

APPLICATION

Hybrid Injector Cleaner is designed for use in all hybrid vehicles with a petrol engine running on regular or E10 petrol. It is safe to use with catalytic converters, gasoline particulate filters (GPF) and oxygen sensors.

Hybrid Injector Cleaner is suitable for use on all types of petrol injection including direct injection and port fuel injection.

FOR BEST RESULTS

- 1 x 375ml bottle treats 50L of petrol
- Add directly to the fuel tank prior to filling
- Use regularly for maximum benefit

Please Note: If your vehicle is fitted with a “Capless” Fuel Filler system, we recommend using the vehicles emergency fuel filling funnel when adding this product to the fuel tank

PRODUCT BENEFITS

- Stabilises fuel and prevents fuel ageing in hybrid vehicles with low fuel turnover
- Cleans deposits in the intake, combustion system and injectors
- Increases lubricity of fuel to reduce friction and wear
- Prevents the build-up of new deposits
- Reduces exhaust emissions
- Protects the fuel system from corrosion
- Improves drivability, fuel economy, and engine power
