INSTANT SYNTHETIC CHAMOIS

Last updated: 02/05/2019 8:35 am

PRODUCT CODE	PACK SIZE	CARTON QTY
CCCHAMOIS	1	20

PRODUCT BENEFITS

Instant Synthetic Chamois is a highly absorbent synthetic material chamois manufactured for removing excess water and cleaning. It is durable, strong and long lasting as well as being industrial sized to facilitate the removal of water faster and easier

APPLICATION

Instant Synthetic Chamois is designed for use in all internal and external automotive, marine and general household applications where cleaning and the removal excess water is required to leave a streak and spot free finish.

Instant Synthetic Chamois can be used on cars, boats, trucks, buses, motorcycles or around the house. It is ideal for wiping off water after car washing, wiping and cleaning windows and other glass surfaces and wiping car interiors for all hard and soft surfaces.

Instant Synthetic Chamois is made from synthetic material which is highly absorbent and is resistant to oil, fuels and most cleaning chemicals making it long lasting and economical. It can be kept damp in its container in the cars glovebox and be ready to use immediately.

Directions for use

1. Before using, always rinse in fresh clean water and wring out excess, leaving it moist.
2. For best results, open the chamois to full size and drag flat across the surface you are drying
3. Squeeze out chamois as it becomes saturated with water.
4. When finished, rinse with fresh water, wring out.
5. Fold flat and always store in container.
6. Keep container closed when not using.
7. If chamois has dried out completely, soak in fresh clean water and wring out when saturated.

PRODUCT BENEFITS

- Resistant to wear, oils fuels and cleaning fluids
- Ideal for the glove box
- Industrial sized for faster water removal and cleaning
- Can be used for household cleaning
- Moisture preserving container
- Thick and absorbent
