LIGHTNING FLASH WASH VEHICLE CLEANER

Last updated: 30/11/-0001 12:00 am

PRODUCT CODE	PACK SIZE	CARTON QTY
501T	20L	

PRODUCT BENEFITS

Flash Wash is a biodegradable, non-phosphate concentrated vehicle wash designed to remove all soils on vehicle paintwork and chassis. It contains a water soluble wax and fluoropolymer to give a residual shine and protective coating that helps prevent re-soiling of the surfaces for a freshly washed look that lasts longer. It also has a built in rust inhibitor to protect all metal surfaces from corrosion.

APPLICATION

Flash Wash can be used to wash passenger cars, 4WDs, light commercial vehicles, trucks, buses, boats, motorcycles, caravans, mining and agricultural machinery. It can also be used as an outdoor cleaner for building and factory maintenance.

Ideal for cleaning exhaust soot stains from truck bodies, exhaust stacks and side curtains and brake dust residue from wheels. It is compatible with all vehicle pressure washing systems and has no oxidising surfactants or phosphates.

HOW TO USE

Sponge/Spray application – 25ml to 1L water

Pressure washer - See manual for recommendation
