LIGHTNING PARTS WASHING FLUID

Last updated: 02/10/2023 4:23 pm

PRODUCT CODE	PACK SIZE	CARTON QTY
LTPWF020	20L	

PRODUCT BENEFITS

Parts Washing Fluid is a solvent based, non-emulsifiable degreaser designed specifically for use in automotive and industrial parts washing machines. It quickly dissolves all petroleum based oils and greases from ferrous and non-ferrous metals, most plastic and painted surfaces.

APPLICATION

Parts Washing Fluid is ready to use directly from the drum and requires no mixing. It is non foaming, slow evaporation and low odour product with a high flash point making it safer for use in commercial applications. It is recommended for use where interceptor oil and grease traps are installed.

Parts Washing Fluid is ideal for use in circulating, agitating, immersion and continuous parts washing machines, cleaning and soaker tanks.

HOW TO USE

- Pour directly into parts washing storage tank and use parts washer as directed by the manufacturer
- Pour directly into soaker tank and immerse parts to be degreased and cleaned
